

NuCotton®

Ideal for high temperature applications, spill removal, work surfaces and static dissipative applications

Description

NuCotton® is a strong, double sided 2 x 1 twill cotton wiper made with long staple cotton yarn to eliminate free floating fibers on the fabric surface. Bias cut to minimize fraying. Ideal for high temperature applications, spill removal, work surfaces and static dissipative applications.

Features

- 100% cotton wiper
- Made from sustainable and renewable raw material
- Consistent manufacturing supply chain with complete traceability from yarn to finished product
- Environmentally friendly, biodegradable
- Bias cut to prevent fraying
- Solvent-safe packaging
- Autoclavable
- High temperature tolerance

Benefits

- Provides durability, high absorbency and heat resistance
- Minimizes cleanroom contamination with low-lint surface and edges protected by our ULP treatment
- Dissipative performance in 40–60% RH (relative humidity) environments guards against static discharge
- Excellent resistance to buildup of electrostatic discharge
- Consistent manufacturing supply chain with complete traceability from yarn to finished product

Applications

- Cleaning, polishing and burnishing of metallic and nonmetallic surfaces
- Cleaning diffusion furnace equipment in water fabrication and other equipment in areas where high temperatures prevent the use of synthetic wipers
- General aqueous and organic solvent spill control and cleaning
