Protection for People & Processes

Kimberly-Clark Professional understands the challenges you face in protecting your process from contamination and your people from harm. We also understand how you strive to maintain the highest laboratory and cleanroom standards, while meeting your sustainability goals. We have solutions that can minimize contamination and risk while increasing productivity and reducing waste. Let us show you how.

Protection: When and Where it Counts

When it comes to protection, you can't cut corners. You need reliable, trusted solutions that will deliver the highest level of assurance — seamlessly.

Kimtech™ Brand solutions provide sterile and clean-processed apparel options that will close the gaps in contamination, effectively and efficiently, while delivering comfort to your employees. And that's not all. The Kimtech™ Brand offers innovative gowning technologies, sterile and non-sterile glove products and task-engineered wipers that deliver precision performance for all your lab and cleanroom needs.

Scientifically proven. Intuitively designed. Reliable.

For protection against known and unknown risks, put your trust in the **Kimtech™** Brand.

If your garments
are compromised,
your process could be too.

Are You
Dressed
For Success?™

Contamination is a People Problem.

To avoid cleanroom contamination, we have to look at its source: PEOPLE. They are the largest contributor.

What stands between you and the risk of contamination? **Your choice of garment.**

Selecting the right garment can reduce the contamination risk dramatically.

The Good News: We Make It Simple.

Being **Dressed For Success™** means choosing a garment that can control contamination and gives you the assurance to do your best work.

Contamination is bad for business, especially for an industry where purity is paramount.

Before you get dressed, turn to the experts in sterile garments — **Kimtech™ Sterile Single-Use Apparel** for seamless protection when and where it counts.

There are big differences between Kimtech™ Sterile Single-Use Apparel and Laundered Garments:

› SINGLE-USE GARMENTS

Kimtech™ sterile single-use garments are engineered to reduce contamination risk, offering significantly higher Bacterial Filtration Efficiency (BFE) ratings than laundered reusable apparel. And they're sterile every time — **guaranteed.**

Bacterial Filtration Efficiency (BFE)

Strong barrier for fine particles and liquids

› LAUNDERED GARMENTS

Laundered garments typically contain a single layer of woven polyester-blend fabric, which may degrade after multiple laundering and sterilization cycles — leading to BFE declines of more than 25% after an average of five washes.¹

Bacterial Filtration Efficiency (BFE)

Fabric degradation at the submicron level — enough to allow bacteria to penetrate

› For more information, visit www.kimtech.com/dress-for-success

¹ Kimberly-Clark Test Study

Here's What Success Looks Like

▶ Our garments close the gaps in contamination and offer cloth-like comfort through a 100% polypropylene breathable SMS (Spunbond Meltblown Spunbond) fabric.

CONTAMINATION CONTROL FEATURES:

Advanced Clean-Don™ Technology

Lowers contamination risk and makes sterile donning easier — minimizing the chances of workers touching the outside of garments or garments touching the floor

Each Garment Sealed in Multi-Layer Packaging

To guarantee sterility

Secure Fit to Reduce the Risk of Particles Escaping

And a gap guard for additional protection

Snap Technology on Arms and Legs

Built-in snaps automatically release as the garment is put on — lowering the risk of it touching the floor

Inside-Out Fold

Visible blue line along the inside of the garment signals the proper place to hold while gowning and helps workers avoid touching the outside of the garment

Built-in Thumb Loops

Keep garment sleeves from rolling back and exposing the arm or wrist

Protects the Shoelace Area

Closing a potential contamination gap

Plus:

Recyclable via
The RightCycle Program

Divert these previously hard-to-recycle items from your waste stream

What You Need

FOR ISO 5 THROUGH ISO 8 CLEANROOM ENVIRONMENTS

Contain submicron particles, from head to toe, with seamless protection and comfort for ISO 3 or higher cleanrooms.

ISO
5

GRADE A

Sterile filtration, filling & stoppering, lyophilization

- Kimtech™ A5 Cleanroom Apparel, clean processed with Clean-Don™ Technology (see pages 14-17)
- Kimtech™ M5 Cleanroom Face Masks (see page 47)
- Kimtech™ G3 White Nitrile Gloves & Kimtech™ G3 Latex† Gloves (see pages 32-34)

ISO
6

GRADE B

Activities in areas directly surrounding Grade A zone

- Kimtech™ A6 Liquid Splash Protection Coverall with Hood (see page 18)
- Kimtech™ M6 Cleanroom Face Masks (see page 48)
- Kimtech™ G3 White Nitrile Gloves & Kimtech™ G3 Latex† Gloves (see pages 32-34)

ISO
7

GRADE C

Drug compounding, compression, coating

- Kimtech™ A7 Certified Liquid Barrier Gown (see page 19)
- Kimtech™ M7 Veils (see page 48)
- Kimtech™ G3 NXT™ Nitrile Gloves & Kimtech™ G3 Blue Nitrile Gloves (see pages 32-34)

ISO
8

GRADE D

Material staging, labeling and packaging, laboratory

- Kimtech™ A8 Cleanroom Apparel (see pages 20-22)
- Kimtech™ G3 NXT™ Nitrile Gloves & Kimtech™ G3 Blue Nitrile Gloves (see pages 32-34)

* CAUTION: This product contains natural rubber latex which may cause allergic reactions.

The RightCycle Program

Giving Gloves and Garments New Life

600 tons & counting
Waste diverted since 2011

Sustainability matters to you and to us. That's why we created The RightCycle Program, the first large-scale recycling program for non-hazardous lab, cleanroom and industrial waste. Since 2011, we've helped hundreds of customers divert more than 600 metric tons of waste. We can do the same for you by turning your used gloves and garments into flowerpots, patio furniture and other useful products.

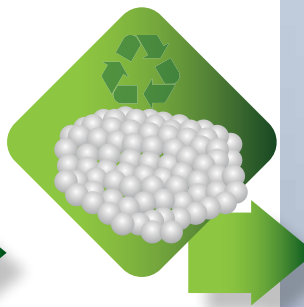

At Kimberly-Clark Professional, we're always working to reduce the environmental impact of our products. Reducing our dependence on the world's natural resources, leaves more for the future — for our children, for the planet and for our businesses. We strive to help customers like you reach your zero waste-to-landfill goals. The RightCycle Program is part of this commitment and one very important way for us to work together, one ton of waste at a time.

Apparel and gloves are worn in your facility.

Used products are collected and shipped to our recycling centers.

Used products are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

“For me, the biggest appeal about RightCycle is that it’s the start of an EPR, an Extended Producer Responsibility, for a material that we don’t often think about. Gloves are a high-volume, fast-moving commodity used by almost every industry. Once people start getting good at recycling primary commodities, such as paper and plastic, we’re going to have to move to secondary commodities. Gloves bring you to that next level.”

— Shantanu Pai
Assistant Sustainability Researcher,
Illinois Sustainable Technology Center (ISTC)

APEX Makes it Happen

When you're transitioning to a new brand of products, you want the changeover to be seamless and worry-free. That's where APEX comes in. It's our promise to you to make the conversion to Kimtech™ Brand products as successful as possible.

APEX is a complimentary training program that effectively engages employees, ensuring protection of the scientific process while enhancing efficiency and performance. Expert consultants work with employees on everything from aseptic technique and best practices to standard operating procedures (SOP) review and physical gown and glove training.

APEX is an essential component of our solutions and another example of what makes Kimberly-Clark Professional so exceptional.

APEX

“APEX is invaluable.
It helps with ‘big change’
for customers.”

- Kimberly-Clark Professional distributor

KIMTECH™

Protective Apparel

Kimtech™ Brand apparel provides seamless protection when and where it matters most — closing the gaps in your protection. As a global leader in lab and cleanroom PPE, Kimberly-Clark Professional products work together to enhance comfort, compliance and productivity.

With innovative features such as Clean-Don™ Technology and built-in thumb loops, our apparel provides protection for the scientific process and peace of mind for workers. Whether you need sterile or non-sterile apparel, the Kimtech™ Brand has got you covered. And that is not all — our apparel and accessories are recyclable via The RightCycle Program.

Kimtech™ A5 Sterile Cleanroom Apparel

Clean Processed with Clean-Don™ Technology

ISO 5

S

PRODUCT FEATURES

- **Highly visible blue line** along the inside of the garment signals the proper place to grasp while gowning, helping workers to avoid touching the outside of the garment
- **Cloth-like comfort** is delivered by the SMS (Spunbond Meltblown Spunbond) material
- **Built-in thumb loops** keep garment sleeves from rolling back and exposing arm or wrist
- **Innovative inside-out fold** pattern presents the inside of the garment as the package is opened, reducing the risk of touching and contaminating the outside of the coverall
- **Patented telescoped arms and legs with snap technology** feature built-in snaps that gather up legs and arms to lower the risk of touching the floor, then automatically release as garment is put on

Kimtech™ Apparel SMS Fabric

Outer Layers – Cloth-like, yet tough and abrasion-resistant spunbond polypropylene

Middle Layers – Intricate web of microfibers that filter out many water-based liquids and dry particulates

TYPICAL USES

(ISO 5-8
Cleanroom Environments)

- Compounding
 - Mixing
 - Filling
 - Cleaning

A5 Sterile Integrated Hoods

- Oval head design to accommodate different hairstyles and head shapes
- Optimized viewing to limit skin exposure around forehead and cheeks
- Integrated hood and mask to close gaps in protection

A5 Sterile Elasticized Hoods

- Stretch fit elastic hood and opening
- Tunneled overseams to prevent particle shedding
- Clean-Don™ Technology ties for easy donning and a more secure fit

A5 Sterile Boot Covers

- Side grasp ties for secure fit
- Vinyl edge to reduce slipping and liquid penetration
- 3 sizes available (S/M, L/XL, Universal)

A5 Sterile Sleeve Protectors

- Blue-line donning signal feature
- Thumb loops keep sleeves from rolling back and exposing arm or wrist

KIMTECH™

Gloves

Kimtech™ Brand gloves protect your process and your employees from known and unknown risks while delivering comfort, dexterity, quality and the assurance to do your best work. They work hand in hand with other head-to-toe solutions from Kimberly-Clark Professional — the global leader in lab and cleanroom PPE and wiping products.

Which Glove is Right for You?

Choose from a wide variety of cleanroom and laboratory glove offerings including a true original: our Purple Nitrile™ Exam Glove, *the glove of choice in labs and the most recognizable glove in the market.*

Cleanroom & Exam Glove Selection Guide

Category	Suggested Use	Performance			
		Best	Better	Good	
Sterile Gloves					↑ Protection Level
G3 White Nitrile	Parenteral Drug Manufacturing; Ophthalmic Manufacturing; Biotech; Aseptic processing	●			
G3 Latex†	Parenteral Drug Manufacturing; Ophthalmic Manufacturing; Biotech; Aseptic processing	●			
G3 Sterling™ Nitrile	Parenteral Drug Manufacturing; Ophthalmic Manufacturing; Biotech; Aseptic processing		●		
G5 Latex†	Parenteral Drug Manufacturing; Ophthalmic Manufacturing; Biotech; Aseptic processing			●	
Non-Sterile Gloves					↑ Protection Level
G3 White Nitrile	Pharmaceutical; Biotech; Semiconductor; Medical device; Electronics	●			
G3 NXT™ Nitrile	Pharmaceutical; Biotech; Semiconductor; Applications where double donning is necessary	●			
G3 Blue Nitrile	Pharmaceutical; Biotech; Semiconductor; Applications where double donning is necessary	●			
G3 Latex†	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage	●			
G3 EvT Nitrile	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage		●		
G3 Sterling™ Nitrile	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage		●		
G5 White Nitrile	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage		●		
G5 Blue Nitrile	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage		●		
G5 Sterling™ Nitrile	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage		●		
G5 Latex†	Pharmaceutical; Biotech; Semiconductor; Medical device; Disk Drive; Data Storage			●	
G5 Vinyl Co-Polymer	Semiconductor; Medical device; Disk Drive; Data Storage; Electronics			●	
Exam Gloves					↑ Protection Level
Purple Nitrile™	Higher-risk applications within life sciences: pharmaceutical & biomedical research, forensic science, non-sterile drug manufacturing, hazardous drug compounding, chemotherapy, EMS, petrochemical, chemical processing, electronics, BSL 1 & 2 lab research	●			
Blue Nitrile	Protection against moderate to high exposure to fluids or chemicals: pharmaceutical & biomedical research, chemical processing, petrochemical, BSL 1 & 2 lab research, medical device, forensic science research, food processing, electronics, janitorial	●			
Spring Green Nitrile	For general laboratory use in life sciences, university labs, medical device, forensic science, chemical processing, petrochemical, food processing, janitorial		●		
Forest Green Nitrile	For general laboratory use in life sciences, university labs, medical device, forensic science, chemical processing, petrochemical, food processing, janitorial		●		
Sterling™ Nitrile	For general laboratory use in life sciences, university labs, medical device, forensic science, chemical processing, petrochemical, food processing, janitorial		●		
PFE-Xtra & PFE Latex†	For general laboratory use in life sciences, university labs, medical device, forensic science, janitorial		●		
Lavender™ Nitrile	For use in lower-risk laboratory applications: pharmaceutical, biomedical, medical device research, petrochemical, electronics, janitorial			●	
Comfort Latex†	For use in lower-risk laboratory applications: pharmaceutical, biomedical, medical device research, petrochemical, electronics, janitorial			●	

† CAUTION: This product contains natural rubber latex which may cause allergic reactions.

Advantages of Kimtech™ Gloves

Acceptable Quality Level (AQL)

- Refers to the probability of having defective gloves within a lot
- The lower the AQL number, the lower the probability of defective gloves
- Kimtech™ Gloves exceed ASTM standards for freedom from pinholes and critical defects (*ASTM = AQL 2.5; Kimtech™ Gloves = AQL 1.5 or better*).
- A low AQL for pinholes is important — the lower the number of pinholes, the greater the level of barrier protection

The Importance of Trend & Technical Data^{†††}

- Demonstrate consistent product quality over time
- Trend data indicating particle counts and extractable levels are available for all Kimtech™ G3 Latex[†] and Nitrile Gloves

■ Monthly Particle Average (Particles larger than 0.5 microns)

■ Upper Limit Specification

Example based on historical Critical Nitrile Data

^{†††} Tested according to the procedure as described in IEST-RP-CC005.3: Gloves and Finger Cots Used in Cleanrooms and Other Controlled Environments

[†] **CAUTION:** This product contains natural rubber latex which may cause allergic reactions.

Sterile

Recommended for ISO Class 5 or higher cleanroom

Sterile Cleanroom Gloves

Formerly Kimtech Pure™ Brand

Kimtech™ G3 Sterile White Nitrile Gloves

Highest personal and process protection in the sterile range

PRODUCT FEATURES

- Gamma sterilized (10⁻⁶)
- Packaged for aseptic donning (walleted and pouched in polyethylene)
- Suitable for double donning
- Low endotoxins: typical <5, max ≤20 EU/glove
- Tested for use with 12 chemotherapy drugs and 4 hormones, per ASTM D6978-05
- Meets USP <800> guidelines
- Meets U.S. FDA regulations and Canadian requirements for food-handling applications
- Particles: typical 700, max ≤950 at >0.5 um/cm²
- Not made with natural rubber latex
- Textured fingertips with beaded cuff for easy donning
- Hand-specific pairs
- Static dissipative in use

Packaged in a Class 100 Cleanroom

KIMTECH™

Masks

Our solutions help keep contaminants from getting in or out, providing seamless protection for your people and process and the assurance to do your best work. As a global leader in PPE and wiping solutions for labs and cleanrooms, we offer an array of options that work together to meet your mask, respirator and other PPE needs.

TOP CONTAMINATION SOURCES:

Skin flakes, oils, perspiration and hair can all contribute to cleanroom contamination.⁶

Which Product is Best for You?

These charts will help you determine the best cleanroom and lab masks for use in your environment.

Kimtech™ Cleanroom Masks

Category	Suggested Use	Performance		
		Best	Better	Good
M3 - Sterile 	Pharmaceutical/Biotech	●		
M3 - Clean 	Semiconductor/Disk Drive/ Data Storage/Integrated Circuits	●		
M5 - Clean 	Biotech/Medical Device/Electronics/ Telecommunications		●	
M6 - Clean 	Semiconductor/Disk Drive/ Data Storage/Integrated Circuits		●	
M7 - Clean 	Semiconductor/Disk Drive/ Data Storage/Integrated Circuits			●

Kimberly-Clark™ Lab Masks

Protection Level ↑

Category	Suggested Use	Performance		
		Resistance to penetration by synthetic blood, mmHg pressure	BFE %	PFE %
N95 Respirator with Level 3 Mask	High-risk small airborne contaminants/ respiratory infection control ⁷	160	≥99%	≥99%
Level 3 Masks	Heavy to moderate blood or fluid exposure	160	≥99%	≥99%
Level 2 Masks	Moderate to light blood or fluid exposure	120	≥98%	≥98%
Basic Protection Masks	Short non-fluid exposures	—	≥95% - ≥98%	≥95% - ≥98%

3 Steps in Selecting a Face Mask

- 1 Identify the work environment
- 2 Select the style
- 3 Determine the attachment

Simple Donning Steps

- 1 Select your mask
- 2 Pleats point down
- 3 Shiny side out
- 4 Adjust the head attachment
- 5 Pinch the nose wire around the bridge of the nose
- 6 Proceed to your work

Sterile Cleanroom Masks

Wipers

When it comes to precision cleaning in a scientific environment, you need wiping products you can trust. The Kimtech™ Brand's innovative wiping solutions provide the assurance you need to do your best work while protecting critical environments and processes.

The Industry Standard

Over 60 years ago, Kimberly-Clark Professional created Kimwipes® Wipers, the first delicate-task wiper for lab environments. It remains No. 1 today. From the industry standard for labs and research facilities to sterile pre-saturated cleanroom wipers, the Kimtech™ Brand continues to deliver high-performance wiping solutions. These, combined with our head-to-toe PPE, deliver seamless protection when and where it counts.

Eyewear

Kimberly-Clark Professional offers safety eyewear for different work environments and a variety of different tasks. Designed with the wearer's needs and style in mind, our eyewear offers a comprehensive portfolio of eye protection options.

DON'T LET YOUR WORKERS BECOME A STATISTIC
 More than **2,000** people sustain a job-related eye injury every day.¹³

Protection for Different Environments and Tasks

Our eyewear offerings provide workers with choices — such as different colors, sizes and vision assistance — potentially tipping the scale between protection and injury. Why take a chance on anything else? Choose our trusted brands to enhance safety and productivity in your workplace.

Symbols Key

-  Meets the optical requirements of the ANSI Z87.1 standards
-  Meets the ANSI Z87.1 requirements for dust protection
-  Lenses are made of a polycarbonate material that provides 99.9% UVA/UVB/UVC protection
-  Meets the impact protector requirements of the ANSI Z87.1 standards
-  Meets the ANSI Z87.1 requirements for fine dust protection
-  Product complies with the Trade Agreements Act
-  Meets the ANSI Z87.1 requirements for liquid splash/droplet protection
-  Certified to meet the impact, ignition/flammability, coverage, and optical requirements of the CSA Z94.3 standards
-  Number denotes the base curve of the eyewear; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields

Element® Safety Eyewear — Visitor safety glasses

Monogoggle™ 202 Particle Protection Safety Goggles

PRODUCT FEATURES

- Two-piece goggle frame with a separate soft, cushioning nosepiece for enhanced fit and comfort
- Unventilated design provides protection from fine dust particles
- Fits over most prescription eyeglasses

Code	Lens	Coating	Frame	Pairs/Box
16666	○ Clear	—	● Green	36
16667	○ Clear	Anti-Fog	● Green	36

Headband buckles are located towards the rear of the goggle frame to limit interference with peripheral vision

Monogoggle™ VPC Splash Protection Safety Goggles

PRODUCT FEATURES

- Splash protection goggles in the same two-piece goggle frame as the Monogoggle™ 202 and 211, but with a larger lens for enhanced fit and comfort with larger prescription eyeglasses
- Indirect ventilation like the Monogoggle™ 211 style, but with two additional baffled ports to increase airflow and minimize condensation and fogging, while protecting from splashes
- Wider nosepiece to fit over most half-mask respirators
- Fits over most prescription eyeglasses

Code	Lens	Coating	Frame	Pairs/Box
16361	○ Clear	Anti-Fog	● Bronze	36

Headband buckles are located towards the rear of the goggle frame to limit interference with peripheral vision

Shield™ Safety Goggles

PRODUCT FEATURES

- Monogoggle™ XTR goggles integrated into a face shield to provide full eye and face protection from liquids without the hassle of primary eye protection underneath a face shield
- Curved face shield conforms to the shape of the face for added protection
- Fits over most prescription eyeglasses

Code	Lens	Coating	Frame	Pairs/Box
18629	○ Clear	Anti-Fog	● Blue	6

Shield detaches from the goggles for a 2-in-1 solution

Monogoggle™ 211 Splash Protection Safety Goggles

▶ PRODUCT FEATURES

- Economical splash protection with a soft, pliable frame for enhanced fit and comfort
- Button vents offer indirect ventilation while providing protection from splashes
- Fits over most prescription eyeglasses

Headband buckles are located towards the rear of the goggle frame to limit interference with peripheral vision

Code	Lens	Coating	Frame	Pairs/Box
