About Texwipe

Texwipe's commitment to innovation, leadership and quality in cleanroom consumable products spans more than fifty years. We invest in technology to respond to our customers' evolving needs in contamination control.

Texwipe's Core Values are:

- **Innovation** – Texwipe pioneers the latest technologies to provide innovation in contamination control products and processes.
- **Quality** – Texwipe product quality is maintained by the most advanced testing and quality control standards in the industry.
- **Technology Leadership** – Texwipe leads our industry in testing metrology, methods and processes to reduce contamination.

Throughout Texwipe's global operations, we support our customers with products designed to exceed the requirements for cleanroom consumable products. Our highly professional team will help you select and develop products for any critical environment application.

Texwipe CleanTips®

Texwipe Cleanroom Swabs, with their trademark green handles, are the standard in cleanrooms across the globe. Engineered for superior cleanliness and consistency for a variety of applications, Texwipe has a swab that will provide the best contamination performance available.

Our products range from Microdenier, Polyester, CleanFoam®, ESD-Safe, General Purpose, Cotton and our Specialty line featuring the pre-wetted CrushTube™ Swab.

Texwipe Cleanroom Swabs are manufactured with a complete thermal bond, eliminating adhesive contamination*. Our swabs are manufactured using high-precision automated processes, resulting in swabs constructed to exacting and consistent tolerances, lot coded for traceability and quality control.

Custom Swabs

At Texwipe® we understand that the best swab for your application may be something unique. We can create a custom swab for your specific applications.

Sterile Swabs

We can create sterile versions of all Texwipe swabs or something unique and specific to your application.

Sterile Swabs

Texwipe's Sterile Swabs are available in USP-grade cotton, polyurethane foam and medical-grade spun polyester. The swabs are made to exacting and consistent tolerances using high-precision automated processes. The easy-to-open, individually wrapped swabs ensure sterility at point-of-use. The swabs are visible through clear packaging which also offers visibility of seal integrity.

TOC Cleaning Validation Kits

Texwipe's TOC Cleaning Validation Kits are designed to simplify sampling as part of a cleaning validation protocol. The swabs and vials are further cleaned using a proprietary processes to make these kits excellent for use in Total Organic Carbon (TOC) analysis.

The kits are an organized, convenient and secure method for transporting swabs and vials from storage area to sampling sites to laboratory with minimal chance of contamination.

Packaged in cleanroom-compatible, recyclable polypropylene boxes.

Two size options available.

Polyester Swabs

Microdenier Series

Texwipe's Microdenier Swab Series is made from the cleanest microdenier material, 100% polyester, nylon-free. The complete thermal bond construction eliminates adhesive contamination.

Cleanroom laundered, providing ultra low levels of particles, NVRs (non volatile residues) and ions, and engineered to provide enhanced absorbency and quick wicking performance. Streak-free cleaning with scratch-sensitive surfaces and compatible with QAC (quaternary ammonium chloride) cleaners and disinfectants. 100% virgin polypropylene handle.

Cleanroom manufactured, made to exacting and consistent tolerances using high-precision automated processes. Lot coded for traceability and quality control.

Packaged in a reclosable, silicone-free bag.
